---

Chip and Eric,

Please see the attached email from Nancy Musgrove. Nancy is looking for the backup material for the reliability analysis. Can you please forward these files to us or have them posted on the ftp site?

Thanks,

Subject: missing files?

Hi Jen—EPA provided a series of files and maps showing the results of NOAA's logistic regression model. One of the files listed on Parametrix's ftp site is call "ph\_model\_reliability\_100818.xls; however, it does not contain the reliability analysis results. Rather the contents reference another file "PH\_19685502\_31\_PR5\_100816" that is not included on the ftp site as far as I can tell. Would you please request NOAA's reliability results from EPA?

Thanks so much!

Nancy M
